

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Winder Laboratories LLC is conducting a recall at the CLASS II level, as of 28th May 2024.

The product is being recalled due to a customer complaint from a distributors / Pharmacy who opened a bottle of Phenazopyridine HC1 tablets USP 100 mg and found Phenobarbital tablets 16.2 mg. Upon learning of the incident, Winder Laboratories initiated Field Alert Report (FAR) to FDA and opened a product complaint and an investigation followed. Winder laboratories is confident this is an isolated incident with just one bottle.
